

OBSERVATIONS:

Plan:

Four horizontal lines for planning.

Prepare & Maintain:

Seven horizontal lines for preparation and maintenance notes.

Plant:

Four horizontal lines for planting notes.

Harvest:

Four horizontal lines for harvest notes.

SOW & PLANT BY ZONE

Sadly, there isn't much outdoor planting to do during this time.

INDOORS

Zones 4-7 can start seeds of salad greens and herbs indoors under grow lights. A windowsill can also work as long as there is bright enough light.

HARVEST BY ZONE

Zones 6-8 can harvest any remaining veggies in the garden.

Zones 8-10 can do the same, specifically beets, bok choy, broccoli, lettuce, spinach, carrots, cauliflower, kale, pea, and cabbage.
