

HOW TO GET STARTED

PLANTING ZONE

Start by confirming the proper planting zone for your garden.

[Find Your Planting Zone](#)

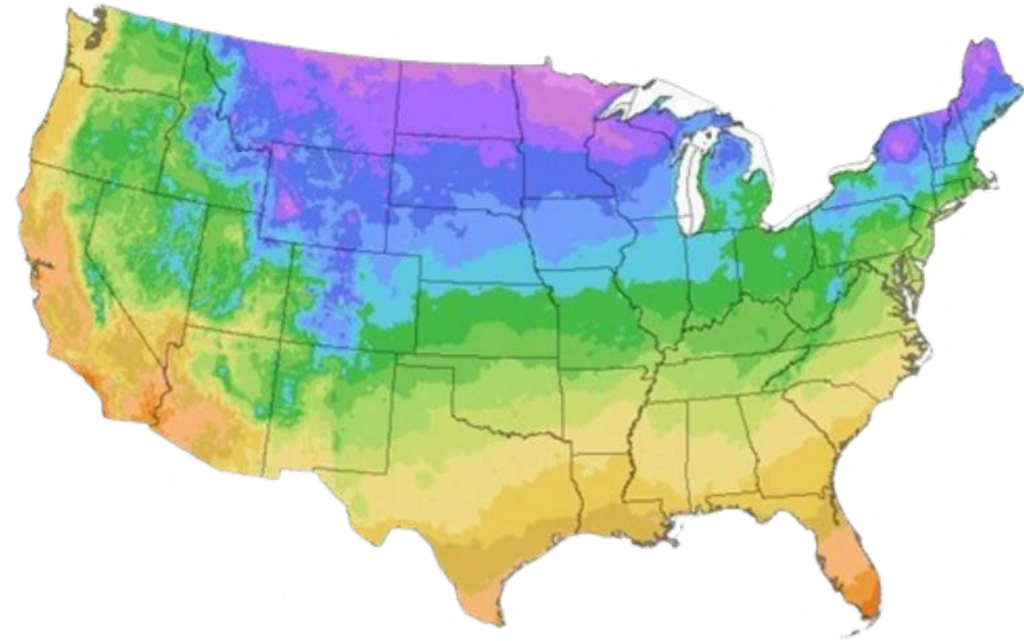

PLANTING CHART VS GARDEN GUIDES

The Kellogg Garden Zone Planting Charts will guide you in when to sow, plant, and harvest individual vegetables by hardiness zone. Along with your planting chart, we have included resource links to help you grow bountiful gardens.

The Kellogg Garden Organic Gardening Guides include detailed information and resources on how, why, and what to do in your gardens as well as advice on planting, growing, and harvesting individual plants throughout the year.

Organic Gardening:

Kellogg Garden Products, family-owned and operated since its establishment in 1925 by our founder, H. Clay Kellogg, now spans four generations. The company continues its success as a steadfast business, guided by Mr. Kellogg's original core values: innovation, loyalty, experience, commitment, and generosity.

These values have led our company to seek the highest level of organic rigor in all its branded products.

In 2012, Kellogg Garden Products committed to strictly follow the USDA's National Organic Program (NOP) guidelines for manufacturing all Kellogg Garden Organics and G&B Organics branded soils and fertilizers.

Every ingredient and every process used to produce our branded products has been verified 100% compliant as organic, all the way back to the source, meeting all federal guidelines.

All our branded products are approved by the California Department of Food and Agriculture's stringent Organic Input Materials (OIM) program, as well as the Organic Materials Review Institute (OMRI)— the leading independent review agency accredited by the USDA NOP.

Kellogg is still the first and only manufacturer to have all our branded organic soils and fertilizers OIM approved and OMRI Listed, making Kellogg the first to offer Proven Organic soils and fertilizers that build life in the soil. Since 1925, we continue to strive to be the leading organic source helping people grow beautiful and healthy gardens - organically.

Kellogg Garden Products:

ORGANIC SOIL

ORGANIC LIQUID FERTILIZER

ORGANIC GRANULAR FERTILIZER
